Focusing on engagement is a critical component of the new 2012-2017 KSU strategic plan. In addition, documenting existing efforts is vital to meeting the university's current goals and objectives.

Engagement is also central to KSU's plan to seek the Carnegie designation as an "engaged campus" and is paramount to ensuring resources are appropriately allocated to support, promote, and enhance engagement moving forward.

We are asking for your help in identifying these activities so that we can assist with the broader goal of more closely linking the university community to the community at large.

This survey should take no more than 10 minutes to complete.

The Engaged KSU team adopted the following definition of engagement:

"Engage KSU promotes collaboration between Kennesaw State University and its larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity."

In an effort to help support the ongoing engaged activities we want to build a comprehensive listing of the current efforts already underway on campus.

We are asking you to identify your top three engaged projects or activities that you have been involved with over the course of the past year and to share them with us. We are asking just a few questions related to each activity.

Before continuing, please read and agree with the following statements.
